

## BRIAN'S BIOGRAPHY

Raised in a large Irish-Catholic family in Oakland, California, Brian Moore is a graduate of a Franciscan Seminary, Mission San Luis Rey College, and holds a Master's degree in Public Administration from Arizona State University. He joined the Peace Corps in 1969 and worked for three years as a volunteer with indigent inhabitants of Latin America.

As a Peace Corps Volunteer and later for a non-profit agency, Brian worked in community development, infrastructure projects and job training that provided housing, water, electricity and sewage to the poorest neighborhoods of Panama and Peru. Fluent in Spanish and conversant in Brazilian Portuguese, he designed and implemented public health projects in several Latin American countries on behalf of private corporations, religious institutions and non-governmental agencies. He raised \$3 million for a de-worming project which protected 1 million children from parasitic infections in the poverty-stricken areas of Brazil, Guatemala and the Dominican Republic.

A longtime peace advocate who actively campaigned for the late Eugene McCarthy and George McGovern during the Vietnam War, Brian is founder and chair of the NatureCoast Coalition for Peace & Justice, an antiwar group organized six years ago. His three decades of civic and political experience includes president of the Good Government League (Hernando County, FL) and VP of the D.C. Federation of Civic Associations. Brian waged several campaigns for mayor and city council in Washington, D.C., in the 80s and 90s, twice ran for Congress in Florida in 2002 & 2004, and ran as an Independent for the U.S. Senate in Florida in 2006.

Brian lives with his wife, Peggy, and their 11-year-old son in Spring Hill, Florida.

## STEWART'S BACKGROUND

Stewart Alexander, Vice Presidential candidate, Socialist Party, is a life-long civil rights activist and an active member of the Peace and Freedom Party of California as well as the Socialist Party. In 2006, he ran for Lieutenant Governor of California. Stewart brings to the country a message of prosperity and human rights for workers.

## MOORE/ALEXANDER ISSUES

**IMMEDIATE WITHDRAWAL FROM IRAQ/IMPEACHMENT AND WAR CRIMES APPLIED TO CHENEY AND BUSH:** As an outspoken and early critic of the misguided and disastrous war in Iraq, Brian favors the immediate withdrawal of all U.S. troops and corporations from that country. Unlike the Democratic Party, which continues to wholeheartedly support and fund the unjustified and costly American occupation of Iraq and Afghanistan — a quagmire that Brian and his antiwar colleagues presciently warned against in 2002 — before the Iraq War began. Brian has called for additional congressional hearings on the Bush Administration's justification for going to war, the abuse of prisoners and the illegal and inhumane use of torture by the CIA and U.S. military. Believing that the Bush Administration is arguably the most nefarious and deceitful in U.S. history and that the administration's misleading and contrived reasons for going to war, the prisoner abuse scandal and the subsequent threats to cherished American freedoms, including right of privacy, clearly constitute high crimes and misdemeanors, Brian is one of several minor party candidates for the U.S. Presidency who have unequivocally called for the impeachment of President Bush, VP Cheney and other high administration and military officials, as well as their indictment at the Hague for crimes against humanity.

**DIPLOMACY WITH IRAN/END AID TO ISRAEL AND IT'S' OCCUPATION OF JERUSALEM AND GAZA:** While denouncing the dangerous saber-rattling rhetoric of the Bush Administration, Republican candidate John McCain and Democratic Senator Barack Obama's call to expand the military in Afghanistan and bomb Pakistan — Brian recognizes that a diplomatic and international solution is the only way to solve this deepening crisis and avoid catastrophe in the Persian Gulf. This is a nightmarish scenario involving a widening civil war in neighboring Iraq and Afghanistan, oil prices exceeding more than \$140 a barrel and \$4.00 a gallon of gas in the USA. Thousands of innocent Iranians — and young American soldiers — shouldn't have to die for another Bush-McCain-Obama inspired bi-partisan blunder. Iran has legitimate security concerns with its neighbors, including India, Israel and Pakistan, who possess nuclear arsenals. Brian calls for the U.S.'s unconditional disarmament, outlawing all weapons of mass destruction and nuclear arms.

**REPEAL PATRIOT ACT-MILITARY TRIBUNALS:** As an activist, congressional candidate and concerned citizen, Brian has consistently spoken out in favor of repealing Patriot Act I & II. Favors congressional hearings to expose that our freedoms and civil liberties have been violated as a result of the Patriot Act, warrant-less searches, new definitions of the Geneva Conventions, domestic spying and secret data mining of the telephone records of tens of millions of ordinary Americans by the NSA.

**ADDRESS GLOBAL WARMING AND PROTECT ENVIRONMENT:** Deeply concerned about the long-term effects of "global warming," Brian strongly encourages protecting the environment and preserving our natural resources. He opposes offshore drilling along the Florida coast and Alaska, diminish our dependence on fossil fuels and favors development of renewable and alternative energy sources to stabilize increasing energy costs in the areas of electricity, oil and natural gas. Favors relieving highway congestion by promoting electric cars and an improved mass transit system nationwide.

**CUT MILITARY SPENDING IN HALF/ END U.S. ARMS SALES/ CALL FOR UNCONDITIONAL DISARMAMENT:** Unlike the Democrats and Republicans, and their Armed Services Committees, Brian has called for an immediate 50% reduction in military spending by eliminating all overseas military bases, ending the Iraq and Afghanistan wars and canceling the production of exorbitant high-tech airplanes and weapons. Brian also calls for an end to U.S. arms sales worldwide. The Socialist also believes that the National Guard and military reservists should be used exclusively for natural disasters and homeland security.

**IMPLEMENT SOCIALIZED HEALTH SYSTEM-- SALARY PHYSICIANS AND PROVIDERS:** With more than twenty years experience in the HMO industry, Brian has long advocated socialized health coverage for everyone — 48 million Americans who are currently uninsured, and 100 million who are underinsured, plus full coverage for immigrant residents — through a national medical, dental and mental care system based on the VA and expanded Medicare delivery models. 1600 private for-profit health insurance companies will be replaced by one national system, thus eliminating excessive profits, paperwork and marketing waste.

**EXPOSE CORPORATE CRIME & WELFARE:** Unlike his major-party opponents, Brian will challenge corporate-occupied Washington by vigorously weeding out corporate crime and corruption, and fighting for America's forgotten workers. As president, the one-time Catholic seminarian will strive to end the corrupting influence of money in American politics. Unlike McCain and Obama, Brian refuses to accept special interest money. He will work to eliminate for-profit corporations and transfer ownership to its workers.

**SUPPORT WORKER CONTROL:** Brian has repeatedly advocated worker control and a trade policy to protect American manufacturing and white/blue collar jobs by keeping U.S. corporations in this country, while discouraging the outsourcing of U.S. jobs to other nations. He favors a 100% capital flight tax. He opposes global trade based on profit by a few corporations as inherently unfair. Brian advocates a 30-hour work week, six weeks paid vacation, repeal of the Hatch and Taft Hartley Acts, unemployment compensation for full job-loss and retraining periods, free education, and union recognition.

**END NATIONAL DEBT:** Since the early 1990s, Brian has consistently called for a balanced budget and an end to reckless deficit spending. In 2005, U.S. taxpayers spent \$352 billion in interest alone on the staggering national debt, much of it to foreign countries, including Communist China. The national debt now exceeds \$9.8 trillion and threatens to wreck havoc on future generations of American taxpayers, enslaving our children, grandchildren and subsequent generations to a level of indebtedness from which they can't possibly escape.

**TRANSITION ECONOMY TO A SOCIALIST SYSTEM:** Brian calls for a fundamental transformation of the American economic system from capitalism to socialism. He calls for the transitioning of for-profit corporations to non-profit businesses, decentralized, owned and its production democratically controlled by workers. He also calls for the nationalization of the oil, pharmaceutical and airline industries and all financial and insurance institutions to be socially owned by a national banking authority. He supports a guaranteed annual income and a maximum income of no more than 10 times the minimum. Brian favors U.S. withdrawal from NAFTA, GATT, CAFTA and WTO, whose policies have increased immigration.

**ADVOCATES STRONG CIVIL RIGHTS PROTECTIONS:** Brian favors combating racism, sexism, and heterosexism, support for affirmative action that includes economic status, free abortion on demand, same-sex marriage, 16th month paid leave, free childcare, ending the pay-gap, banning all forms of racial profiling and a federal ban on job discrimination on basis of sexual orientation/identity.

**END THE TWO-PARTY DUOPOLY, CAPITALISM:** Our country and its principles have been abandoned by Democrats and Republicans alike, by men and women more interested in their next election than in the country's welfare. Both major parties have lost their way in a sea of corporate and special interest money, while lobbyists — who not only influence legislation, but in many cases actually write it. Both major parties share responsibility for the debacle in Iraq and the curtailment of civil liberties at home. They are also equally to blame for increasing immigration, the record trade deficits, housing and the financial crisis and federal budgets with red ink as far as the eye can see. It's time to hold both parties' feet to the fire and inaugurate a new socialized economic plan, public financing of elections and a national and uniform ballot access system for all political parties. Socialist candidate Brian Moore has demonstrated time and again that he has the independence and political will to take on the powers-that-be in Washington and Wall Street, to empower the movement of the working majority for a new economic and political system.
